

# THE TECHNOMANCER

Spiders studio is back with **The Technomancer**, a new post-apocalyptic RPG set in a cyberpunk world for PlayStation 4, Xbox One and PC set on Mars during the War of Water, where an aspiring Technomancer faces a myriad of questions as his future grows threatened by the secrets of his past.

An RPG, **The Technomancer** will offer players action-oriented combat gameplay along four different skill trees, focusing on 3 different fighting styles and the destructive electric-focused powers of the Technomancers. But all situations aren't necessarily to be dealt with brute strength, with dynamic conversation dialogue playing a deep role in quests, changing the story depending on the decisions you make. Craft equipment, weapons and armor for yourself and for the companions you'll recruit along your adventure, nurturing relationships with them.

On the run from the Secret Police and confronted by the harsh realities of the Red Planet, you must undertake a quest that takes you through forgotten paradises, cities lost under the ice, and dystopian shanties sprawled across Mars' dusty embrace.

Faced with the cruelty of Mars' iron-fist enforcers and alien wild-life, can you survive long enough to uncover the truth behind The Technomancer?

**The Technomancer** is slated for a 2016 release on PlayStation 4, Xbox One and PC."

## MAIN FEATURES
